THANKSGIVING SERMON

By Rev. G. A. Joplin, of the First Presbyterian Church, Thursday, November 29, 1900.

Psalm 97:1: "The Lord reigneth, let the earth rejoice."

After an abundant harvest has crowned the toil of spring, it is meet that we offer thanks to our God. And we are accustomed at this season of the year to assemble ourselves together in our various places of worship, in obedience to the proclamation of the Chief Magistrate of the United States, and in accordance with the growing custom of many years, to return our thanks for all the blessings that have crowned the year. Thanksgiving Day is peculiarly an American institution, and who of us is not thankful that we live in America; it is the grandest country that has ever existed; we glory in all that goes to make it a free country, and that gives to man his full liberties. We rejoice in our history, surely if any people in the world have had evidence that God's hand is in their history, we are that people. From the very discovery of America down to the present day we can trace the hand of our God in making this land what it is. With the three great nations, England, France and Spain contending for this country, and each desirous of planting here the religion of Catholicism, with all of its superstitions and ignorance, can any one doubt that it was the hand of God that led a little company of believers, through persecution, to fly from England to Holland, and a few years later, though few in number and poor in this world's goods, yet rich in faith, to come to this new country? The story of their coming is familiar to us all. We can see them as half their number, all that could afford to come, were about to set sail in the little Mayflower; on the shore they are gathered, and their good pastor, John Robinson, kneels with them as they are about to commit themselves to the care of their God as they sailed away to an almost unknown world, going that they might there unmolested worship God. Out upon the great, deep ocean we see the little vessel toiling amid many storms, until at last land is sighted:

"The breaking waves dashed high
On a stern and rock-bound coast,
And the waves against a stormy sky
Their giant branches tossed;

And the heavy night haze dark
The hills and waters o'er,
When a band of exiles moored their bark
On the wild New England shore."

Not as the conqueror comes,
They, the true hearted, came;
Not with the roll of the stirring drums,
And the trumpet that sings of fame;

Not as the flying come,
In silence and in fear,—
They shook the depths of the desert gloom
With their hymns of lofty cheer.

Amidst the storm they sang,
And the stars heard, and the sea;
And the sounding ailes of the dim woods rang
To the anthem of the free.

The ocean eagle soared
From his nest by the white wave's foam,
And the rocking pines of the forest roared,—
This was their welcome home.

There were men with hoary hair
Amidst that pilgrim-band;
Why had they come to wither there,
Away from their childhood's land?

There was a woman's fearless eye,
Lit by her deep love's truth;
There was manhood's brow serenely hued,
And the fiery heart of youth.

What sought they thus afar?
Bright jewels of the mine?
The wealth of seas, the spoils of war?
—They sought a faith's pure shrine.

Ay, call it holy ground,
The soil where first they trod;
They have left unstained what there

They found,—
Freedom to worship God."

After the first harvest had been gathered in they sent out fowls to procure venison and wild turkeys, and their first Governor issued a proclamation "That so they might, after a special manner, rejoice together, after they had gathered in the fruits of their labors." So here a few hundred people, who had faith in God began to build a nation for Him. Through many trials and struggles they had to fight their way. Contests with the Mother country from abroad, and wars with the Indians at home. Surely with such conflicts they were laying the foundation for a great and mighty nation. Can any sensible man believe that it was a blind Fate, or a mere chance, the plan of man, or the power of the greatest autocrat that has ever lived? No; no: It was the hand of our God. These early settlers of our country recognized no title to nobility but the favor of their God. "To know Him, to serve Him, to enjoy Him, was with them the great end of existence." Their homes at first were but rude huts, but their palaces were houses not made with hands; their diamonds crowns of glory which should never fade away. At one time the little New England colony was so reduced in food that there remained only six grains of corn for each individual, but their faith did not fail them, and when the ship arrived from England bringing them supplies, they recognized it as from God, and a Thanksgiving Day was proclaimed. There was no day set apart and observed at that time, but whenever the people felt the helping hand of God a special Thanksgiving Day was called. But out of this custom in time grew the annual Thanksgiving Day, which now forms part of our national life. This country has become what it is by the right use of God given means. Our ancestors did not sit idly down and expect that God would protect them; they believed that God had appointed unto each man his work, so they worked with a will, and gave God the praise and glory.

This year, in his proclamation, the President calls upon us to thank God "He has brought our nation in safety and honor through another year. That the works of religion and charity have everywhere been manifest. That our country through all its extent has been blessed with abundant harvests. That labor and the great industries of the people have prospered beyond all precedent. That our commerce has spread over the world. That our power and influence in the cause of freedom and enlightenment have extended over distant seas and lands."

We have received great blessings from the past, the present is ours, and the future is largely what we make of ourselves to-day if we are not thankful for all temporal blessings. For the comforts of home, for the sweet fellowship of loved ones, for peace and health and strength we thank the God and Father of us all. For the goodness and mercy that have followed us all the days of our lives we bless and praise His holy name. But I desire to-day to lead your thoughts to something higher than these outward and material gifts—though we have never been thankful enough, nor recognized the countless number of our mercies. Back of these good gifts, there lies the cause of gratitude by which these outward mercies are assured, and from which they flow. "The Lord reigneth, therefore let the earth rejoice." The ultimate ground for all grati-

ROYAL Baking Powder

The strongest, purest, most efficient and wholesome of leavening agents. Not lowest in price, yet the most economical; indispensable to all who appreciate the best and most healthful food.

Our country is enjoying prosperity almost unsurpassed in its history.

For every one there is money enough to buy that to eat which is pure, sound, good, wholesome.

Why should we use cheap, impure, unhealthful articles of food? There is no economy in them; they endanger the health, they may cost life. There are reported almost daily cases of sickness caused by eating cake, puddings or biscuit made with the cheap, alum baking powders.

In all articles for food buy and use only the best. The good health of the family is of first consideration.

Alum is used in many baking powders because it makes them cheap. It costs less than two cents a pound. Alum is a corrosive poison. Think of feeding it to children! Yet the manufacturers of well-known alum powders are actually denying that their goods contain it.

ROYAL BAKING POWDER CO., 100 WILLIAM ST. NEW YORK

tude to the true Christian must be that God rules and reigns—that his wisdom guides and his love controls all the events of this earthly life. Into some families trouble has come, upon some lives darkness has fallen; from some health has been taken; debt and loss and disappointment dwell in some homes, but if we once accept as the ground of our thanksgiving the truth of the text, "The Lord Reigneth," then we can keep the thanks giving in our hearts fresh, though outward things fail. The old prophet Habbakuk had learned the secret of thanksgiving, when in faith he could say: "Although the fig tree shall not blossom, neither shall fruit be in the vines, the labor of the olives shall fail, and the fields shall yield no meat, the flock shall be cut off from the fold, and there shall be no herd in the stall, yet will I rejoice in the Lord; I will joy in the God of my salvation." The highest rejoicing is rejoicing in the Lord. This is what the great Apostle to the Gentiles calls upon us to do. The surest way for any of us to give thanks acceptably is for us to go to the Lord that we can be grateful that He reigneth. Then, whether the fields be fruitful or barren, whether there be some sunshine or shadow, seeming woe or seeming joy, if we are only sure that the Lord reigneth, all things must work together for good to them that love Him. Nothing can come to pass that will surprise Him; nothing evil can go beyond His permission. He rules; He must rule wisely and well. It simply cannot be otherwise. The least incident that befalls the obscurest saint is as much His mission, and as completely beneath the control of God, as is the flight of an angel or the preaching of an Apostle.

When troubles and sorrows and disappointments come, we are not to suppose that God is unkindful,

or that He has ceased to love. Rather let us hold fast to the comfort that God is our Father, and all things must therefore work together for our good and His glory. If we believe there is a God, we must believe that He rules in little things. If God does not rule and reign in little things—the least incidents that befall a believer—God does not rule and reign at all. While I use means wherever Christianity and common sense teach me to use means, while I seek to observe the laws of health, and to preserve my life, and avoid needless peril, yet I am just as sure as I am of my existence now, that I am immortal until I have finished the work God has for me to do. While I do not fold my hands and sit down for the ravens sent from God to feed me, I am sure that if I serve Him with all my heart, I shall never want for any good thing. If we trust Him with all our heart, and lean not unto our own understanding, but in all our ways acknowledge Him, is it not His sure promise that He will direct our path? It is not accident that sometimes the droughts come, or the flood or cyclone destroy, or our fondest hopes fall of realization; these things come that men may more fully learn their dependence upon Him.

God has been ruling ever since the world had a being. God is in history, and all history has its unity because God reigns. If God has governed this world in wisdom and love through all the generations of men, is there any reason to believe that He will cease to do so during the little day that we are here? There is nothing which will bring that peace and contentment of heart from which all gratitude springs so surely as the full belief that God reigns, not only in Heaven, but on earth; that all events are under His control. Let Christians to-day

give praise and thanksgiving, that the Lord reigneth. That makes the present and the future secure. Let Christians trust and not be afraid. God reigns, and his purposes will not fail. All things aid them; all things ultimately fulfill them. His wisdom is over all; His love never ceases. He neither slumbers nor sleeps. The Lord reigneth, let the earth rejoice.

"We dare not weep the waning year,
We dare not hail the new.
For vain alike are smile and tear,
And blent the shadows are with cheer,
As past the frostbite and the fear
The gladness struggles through;
But this one truth we surely hold,
God rules all years, the new, the old.

The Past, which brought us so much pain,
Brought, too, the cure for ill;
The Future dimly gleams, in vain
Our steps we urge, our eyes we strain,
As slowly in unheating train
The days their course fulfill,
And each to each these tidings tell—
God rules the years, and all is well.

Brave and content, then, come what may,
We face what time may send,
Life cannot be all holiday
And love and hope alike decay,
And disappointments for the way
Sometimes until the end;
But we can bear all, knowing this—
God rules the years, and we are His."

Birth-marks which mark and mar the outside of the body are a grief to every mother whose children may bear them. But for every child who bears a birth-mark on the skin there are many who bear an indelible birth-mark on the mind. Nervous mothers have nervous children and many a man and woman owes an irritable and despondent temperament to those days of dread when the mother waited the hour of her maternity. The use of Dr. Pierce's Favorite Prescription strengthens the mother for her trial. With strength comes a buoyancy of spirits and quietness of mind, which is one of the happiest gifts a mother can bestow on her offspring. It gives vigor and elasticity to the delicate womanly organs. "Favorite Prescription" practically does away with the pain of maternity and makes the baby's advent as natural and as simple as the blossoming of a flower. There is no opium, cocaine or other narcotic contained in "Favorite Prescription."

About 500,000 votes were cast for the electors on the Prohibition ticket.

Many persons have had the experience of Mr. Peter Sherman, of North Stratford, N. H., who says, "For years I suffered torture from chronic indigestion, but Kola Drasepsa Cure made a well man of me." It digests what you eat and is a certain cure for dyspepsia and every form of stomach trouble. It gives relief at once even in the worst cases and can't help but do you good. F. C. DENISON.

ANNOUNCEMENT.

We are anxious to announce CASHWELL, PRIORIT, of the county of Montgomery, a candidate for State Senator in the 28th district, composed of the counties of Clark, Bourbon and Montgomery, subject to the action of the Democratic party.

THANKSGIVING DAY.

A long time ago the President of these United States said because of the great plenty in our garner as a yield from the earth, because of peace with all nations, because of freedom from pestilence, because of the favor of God in that he is converting the world, a day is set apart and shall be observed when thanks shall be rendered to Him from whom cometh all blessings, and the glad refrain was taken up by the Governors of the States and Mayors of the cities until a day of formal praise and thanksgiving was almost universal. Is it that way today? Is not the practice becoming obsolete? All told within our borders and on streets contiguous thereto, including our town's population, the colored people's towns, there are near 8,000 people in Mt. Sterling and to observe the thanksgiving day there were only about 200 people who assembled at the Baptist church to hear the thanksgiving sermon delivered by Rev. G. A. Joplin and to give alms for the poor, and of this number about one third were men. There were seven preachers, one carpenter, two wholesale merchants, three bankers, one dentist, two shoe-makers, one coal-merchant, one dentist, one express agent, one farmer, two insurance agents, two publishers, some visitors and the rest were women. Are we a grateful people? A tree is judged by its fruit. A few weeks ago a defamer of the character of an innocent woman discussed here in pleasing terms the political differences, and at least 200 women and three times that many men gave him recognition. I say whether are we tending? Had we not better put the breaks on?

THE PEOPLE DEMAND.

In this issue is the announcement of our countyman, Caswell Prewitt, asking for the nomination for State Senator of this (the 28th) district. The people expect the newspapers to advise them of the character and ability of the men who ask their suffrage, and in giving the editor should be well informed and honest. A State Senator has a duty to perform. We look to him to repeal unjust enactments and for the creation of laws, the enforcement of which would redound to the interest of the greatest number. He should therefore be acquainted with our constitution and statutes, and then he should be generally informed and the possessor of a mind that can reason to a just conclusion that no interests may be preferred. In order to have such attainments it is not necessary to be a professional man. Some of our profoundest thinkers and best reasoners are men of toil, farmers, mechanics. Mr. Prewitt is a reading man, a thinking man, with courage to present a bill, the result of conscientiousness and reasoning. With the constitution he has lived in thought and concerning enactments he has an opinion of his own. For our future he has a mind, and to departments of life work he has given time, so that the laws to be repealed or enacted will be voted on by him knowing what is best. A farmer, their interests will be protected; a friend to the laborer he would see to it that their interests would not be jeopardized. He is a man thoroughly equipped by nature and training for the position he asks. Now since he asks the nomination at the hands of the Democratic party, the question in these days of doubts is: Is he sound on doctrines. Ever a democrat loyal to his party platform, he is not the extreme partisan who does not give to others the right to think and act for themselves, but he is an uncompromising Democrat. He would be a candidate, therefore, upon whom all Democrats could agree, one who would be just not only to party, but all men, regardless of party, as well.

DEATHS.

RECENT.—Another of God's salus has diffused the frail robe of flesh and donned the habiliments of glory. This time it is Mrs. Luella Bloom, of Grass, who has been called home. Death came in her last Thursday night, Nov. 29, 1900 as a messenger of peace to release her from her painful invalidism and usher her into the long Thanksgiving Day of heaven. For many years an active member of the Baptist church of this city, and through the later years a patient sufferer, she has gone to her reward. A congregation of relatives and friends gathered in the Baptist church Saturday morning where her pastor preached a most interesting sermon for sorrowing ones, after which her body was laid to rest in beautiful Maplewood until the resurrection of the just. To the many who relatives, friends and friends our kindest sympathy is extended as we remind them that as at the northern pole the midnight sun sinks below the horizon only to flash up again in the dawn of a new day, so man dies that he may live again. The grave hides for a little time, but soon the glorious Christ is the soul's door into immortality.

Nerves Wear Out

And grow weak and exhausted when not properly nourished, just as an engine loses its power when the fuel runs low. The loss of nervous power is seen in the failing health and the wasting form. It is felt in the aching head, the throbbing heart, the irritability, indigestion, restlessness and loss of sleep. Rebuild the worn-out nerves, rest the tired brain and add new fuel to the vital fires with the best of all tonics, Dr. Miles' Nervine.

"Dr. Miles' Nervine has done very much for me in the way of imparting vitality and nerve force. Some years ago I became so run-down in health that I was very nervous and my heart troubled me very much. Failing to get relief from physicians I began taking Nervine, which with the aid of a few bottles of Dr. Miles' Heart Cure has restored my failing health and strength."

Mrs. SARAH JENNINGS, Charleston, N. Y.

McKEE.—Mrs. Mary Jane McKee was born in Montgomery county, Ky., May 8, 1840, and died at her home on Love pike, November 26, 1900. She was a daughter of James and Sarah Anderson, and a sister to Geo. W. and David L. Anderson and Mrs. Julia Evans. In 1860 she was married to Richard McKee, who departed this life in September, 1895. She leaves two daughters, Misses Ida and Blanche, who, with many friends and relatives, mourn her loss. About one year ago she was seized with the malarial, which proved fatal. A few days before death she expressed to the writer her belief that her days were about numbered and that she was in readiness for the final hour. Her sufferings, which were severe, were borne with remarkable fortitude and calmness; and in this she was an example of those who have the Master's grace to sustain them in hours of affliction. In 1860 she joined the Bethlehem congregation of the Christian church, but subsequently transferred her membership to the Mt. Sterling congregation. It was the writer's pleasure to be with her a number of times during her sickness, and nothing seemed to interest her more than prayer and conversation on the scriptures, especially those passages which treat of the dispensation of providence in chastisements. Upon topics of this kind she dwelt long and thoughtfully, and from them drew a comfort which is to be obtained from no other source. Funeral services were held at the family residence, conducted by Rev. D. Clark, after which her remains were laid to rest in Maplewood cemetery. A. E. C.

NO REMEDY EQUALS PERUNA, SO THE WOMEN ALL SAY

Miss Susan Wyman, teacher in the Richmond school, Chicago, Ill., writes the following letter to Dr. Hartman regarding Peruna. She says: "Only those who have suffered as I have, can know what a blessing it is to be able to find relief in Peruna. This has been my experience. A friend in need is a friend indeed, and every bottle of Peruna I ever bought proved a good friend to me."—Susan Wyman.

Mrs. Margaretta Dauben, 1214 North Superior St., Racine City, Wis., writes: "I feel so well and good and happy now that you cannot describe it. Peruna is everything to me. I have taken several bottles of Peruna for female complaints. I am in the change of life and I feel so good." Peruna has no equal in all of the irregularities and emergencies peculiar to women caused by pelvic catarrh.

No Lieutenant Governor.

So many questions have been asked us in regard to the matter of the Lieutenant Governorship, we take pleasure in answering them all at once.

J. C. W. Beckwith is now Lt. Governor, exercising all the power and authority appertaining to the office of Governor.

On the 11th of December he will become Governor in fact, and the office of Lieutenant Governor will be vacant, and will not be filled until the regular election in 1903. The speaker pro tem of the Senate (now Senator Carter from Anderson county) will act as Governor in the event the office of Governor becomes vacant, or the Governor is out of the State temporarily. Senator Carter's term expires Jan. 1, 1902. The Senate will select his successor as President pro tem immediately upon its assembling on the first Tuesday after the first Monday in January, 1902.

In the event of a vacancy in the office of Governor and President pro tem of the Senate, the Secretary of State would act as Governor until the Senate could meet and elect a President pro tem, who would at once administer the office of Governor. The Secretary of State would not vacate his office because of his acting as Governor.

Had Yerkes been elected Governor, Beckwith would have retained his office as Lieutenant Governor.

The Speaker pro tem, gets \$10 per day when the Legislature is in session, and at the rate of \$6.00 per day, or within a fraction of \$18 per day, while acting as Governor.—Carle Mercury, Nov. 29.

Don't be deceived or humbugged by people who claim the discovery of some hitherto unknown herb or root in swamps, or on some mountain or prairie, for the cure of kidney and bladder troubles. Any doctor or druggist will tell you that such claims are fraudulent. Foley's Kidney Cure simply contains remedies that are recognized by the most skillful physicians as the best for these complaints, so don't be credulous or foolish.

Sold by F. C. Duerson, druggist.

A Fatal Accident

The burning to death of Mrs. Lizzie Tracy, of Winchester, noted in our last issue, was caused by the accidental overturning of a bottle of turpentine. She was bathing a bruised ankle when the daughter knocked the bottle over and instantly the mother was enveloped in flames.

Now is the time when croup and lung troubles prove rapidly fatal. The only harmless remedy that produces immediate results is One Minute Cough Cure. It is very pleasant to take and can be relied upon to quickly cure coughs, colds and all lung diseases. It will prevent consumption. F. C. Duerson.

To your wife. Remember she is just as sweet and dainty now as when you used to hold her by the hand and look into her eyes and tell her she was your only love, your heart's delight.

CHILDREN AND CASH.

How Boys and Girls in School Spend Their Money.

An investigation which was conducted recently in the Cleveland school of St. Paul. It had for its purpose to determine in general the notion which children have of the practical use of money.

A list of questions was furnished by Prof. Ashcraft, which the children answered in writing. The questions sought to determine the child's estimate of money which he had acquired in three different ways, namely, by gift, suggesting partial restraint as to spending; by earning, the most difficult means of acquiring, and by finding, by which he acquired with least difficulty. To these ends the following questions were asked:

"If you are given money, about how much each week?"

"If you earn money, about how much each week?"

"What do you do with your money?"

"If you ever found money, what did you do with it?"

"If you had one dollar to spend as you liked, what would you buy?"

It was found that of the 1,353 children reporting, 92 per cent. earned, or were given money, or both, in amounts ranging from five cents to two dollars per week. Of those who thus received money, 57 per cent. made useful disposition of it, and of the 256 children who had found money, 78 per cent. put it to useful purposes.

A noteworthy characteristic of the answers to the question relative to finding money was that 64 per cent. of those who had done so expressed having made attempt to restore it to the loser, and that 82 per cent. of those who had not found money stated that if they should do so they would "try to find the owner," or "put in the paper," if a large amount, or give it to the principal or teacher to be restored to the owner.

Prof. Ashcraft regards this as indicating the honesty of children in general and as furnishing a point for explanation by the materials, which look upon the child as a little savage and upon boyhood as a grubby and a period of low moral tendencies.

Of the 907 children who gave specific answers as to what they would do with a dollar, if allowed to spend it as they pleased, 62 per cent. would invest it in useful things, such as clothing and books; 30 per cent. would buy articles not useful; three per cent. would use it for benevolent purposes, such as relieving the poor, and five per cent. would buy presents for their friends.—San Francisco Examiner.

Compulsory Vaccination.

Small pox exists at Huntington, Ashland, Cerro and other points along the C. & O. road. In view of the danger the road sent a corps of physicians over the road with orders to vaccinate every employee of the road.

A Failure.

The coal miners' strike in Hopkins county, Ky., was a failure. The strike order of President Woods, of the United Mine Workers, was entirely ignored, and more miners presented themselves for employment Monday than could find work.

Will Probated.

The will of Judge J. W. Lindon, who died at the home of his daughter, Mrs. A. H. Hargis, was probated Monday. He had given his daughter, Mrs. Ida B. Gambill, a farm worth \$2,500, which he considered her share of the estate; hence the balance of the estate was given to his daughter, Mrs. A. H. Hargis.—Winchester Democrat.

The question of building railroads in Kentucky is attracting considerable attention at present. People who have good memories will remember that in opposing the adoption of the new Constitution, we stated that it would be many years before another road would be built in this State. We are still of the same opinion.—Carle Mercury.

In the past 10 years only 34 miles of road have been built in the State.—(Railroad Commission.)

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may delay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonic properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and restores normal healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to reform in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—it is purely vegetable and harmless.

Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is, by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; it is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Rheumatism.

Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food. You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not, you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it doesn't, it don't cure. It never does harm.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.

G. W. Flanagan, the one price clothing merchant, of Winchester, made an assignment Tuesday to his father, Judge Flanagan. Judge Flanagan said the assignment was made because of George's continued ill health, and that the assets would be equal to the liabilities.

Why This?

From 1880 to 1890, inclusive, the railroad mileage of Kentucky nearly doubled. To be exact, in 1880 we had in Kentucky 1,530 miles of railroad; in 1890, 3,000, and in 1900 the commission reports 3,054. In the past decade there has been constructed in Kentucky only 54 miles of railroad. Adverse legislation.

Under New Management.

On Sunday, December 1, the recent purchasers assumed the management of the Mt. Sterling Telephone Company. Mr. J. W. Chambers, of Winchester, is in the city and will remain here until the necessary improvements are made, which will much improve the present service.

New 60 foot poles have been ordered, especially for use in the central part of town and on principal streets. 1,600 feet of full metallic cable will be used on two main lines leading to central office, on through two or three squares, and so arranged on arms as to prevent the buzzing sound now noticed, and the overheating of messages from other wires.

We are informed that the service will be first-class when the contemplated changes are completed.

These changes will be made as rapidly as possible and until they are completed the company will not seek any new subscribers.

The rates for service will be \$12 per year for residences and professional offices, and \$24 for business houses, payable quarterly in advance. The present method of collecting will be in force until the improvements are completed.

In a long program of vaudeville acts to be seen nightly with Rosco & Holland's Big Minstrel Festival is the famous Bill Keadle; John Barker, the Alabama Blossom; McKisick & Jones, the knockabout comedians; Byron Family of instrumentalists; a refined musical act; the Flying Bauvari, a trio of gymnasts flying in the air; Furber & Davis, the grotesque acrobatic comedians; Hilliard Brewer the "homeless wonder," the big scenic act, "Down Among the Cypress," the "Drill of the Black Watch," and "Arabian Demenities." The first part is a scenic wonder, using over 500 electric lights, while the wardrobe is elaborate and in keeping with the subject, viz: "The Oriental Terrace." Don't forget the date, Saturday, December 8. The place is at the Grand Opera House.

The Success of Your Christmas Baking

Will depend upon the flour you use. If you use common or inferior flour you cannot expect high-class baking. "Silver Leaf" has all the qualities for high-class work. Its absolute best qualities have been tested and found to be above other flours. It is the highest economy to use it. Other grades may yield the dealer more profit but not the consumer. It is the Ideal Family Flour. All the leading dealers sell it. If yours does not, call on one who does, or at the Clinton Mill. 21-23

Our readers are invited to call on Fred J. Hantz when in Lexington. As a manufacturing jeweler he is well known. His store is always cheerful. With holiday goods it will be especially attractive. See his novelties. His advertisements of watches, baby spoons, diamonds, etc., etc., appears in this issue.

Joe Mulhatten, who some years ago was a commercial traveler in this section, and noted for the numerous stories which he told, is now an inmate of an asylum in Phoenix, Arizona.

Prominent

Among the jewelers of Lexington is Victor Bugaire. His line of holiday goods is ready for your inspection. He will be pleased to see you. 201f

Continuous vaudeville seems to be the real thing in the cities. "Continuous fun" is the motto of Rusco & Holland's Big Minstrel Company, who bring an entire new company of fun makers. There is no fall of the curtain from the commencement of the performance until the finish; the program is too long to permit of any waits or long-drawn-out overtures. It is one continuous round of pleasure and surprising novelties. They will appear in this city at the Grand Opera House, Saturday, December 8.
